NTUST (expected) 2017

B.S IN Information Technology : Average GPA :3.7/4.0

PROFICE

- Attend a traing of the Microsolf's development
 - Design the web like Dating site.Use the Web2py
 - Programed the Identification system of word
 - Programed the Free-style Gomoku of Artificial Intelligence
 - Programed the Text Mining of the report
-

Devlopment tool

- usually use C or C++
 - In the Artificial Intelligence use Python or Octave to design algorithm
 - Use the python to design the web with Web2py
-

Major Skill

- Use Python or Octave or OpenCV to codeing the ML algorithm
 - Can design deep learning of many kinds
like:CNN,ANN,KNN,RBN,DBN
 - Design ROS system
 - Design Classification system
-
